

The diagram shows three structures, A, T, and B, positioned on a common horizontal gray base. Structure A is a single vertical gray bar. Structure T is a single vertical gray bar. Structure B is a stack of three rectangular blocks. The bottom block is labeled $2n$, the middle block is labeled $2n - 1$, and the top block is labeled $n - 1$ size groups. A vertical gray bar extends from the top of the top block in structure B.
